

Yealink Conference Phones

Easy Conferencing, Clear Communication

Yealink designs its audio conferencing solutions to suit a range of different meeting environments. The CP960 and the CP920 address today's audio conferencing challenges and unify a clear-and-easy conferencing communication experience for both in-room and remote participants. The CP960 targets mid-to-large-sized meetings while the CP920 covers small-to-mid-sized meetings.

Pure and Powerful Sound Quality

- Enterprise-grade and performance-oriented, Yealink conference phones deliver best-in-class HD audio quality for everyone in a meeting to keep pace with the team's collaboration and contribute inspired work. Thanks to acoustic technologies from Harman, the CP960 is ideal for larger meetings

Wide-range Voice Pickup, Dead-zone Free

- Featuring 20-foot 360-degree dead-zone-free voice pickup, the coverage area of the CP960 and CP920 adapts to multiple room environments and provides a full sound experience.
- By adding a pair of CPW90 wireless microphones (for CP960 only), participants within a large conference room can move freely and communicate clearly. The CPW90 utilizes Yealink's DECT technology and HD voice technologies to optimize mobility and expand audio coverage area.

Yealink Noise Proof Technology for Smart and Powerful Noise Elimination

- Yealink's Noise Proof Technology frees business voice collaboration from annoying noise and optimizes conference efficiency by minimizing distractions. The Yealink Noise Proof technology includes two interrelated functions:
 - During a conference, Noise Proof reduces constant background noise from sources such as typing, air conditioners, etc.; and
 - When a person is not speaking, Noise Proof automatically mutes the mic(s) until the sound of a human voice is detected.

Ergonomic Design, Best-in-Class Experience

- Stylish and professional, Yealink conference phones adopt a Y-shaped metallic silver body design. With a five-inch touch screen and intuitive interface, the CP960 puts smooth and easy control at your fingertips. Quicker meeting starts and lower training requirements make the CP960 incredibly user-friendly. For users who prefer a traditional key system, the CP920 offers a familiar touchable keypad for less stress and more comfort.

Pentagon Meeting Room

- Offering up to five-party conferencing, Yealink conference phones allow meeting organizers to quickly create a meeting and to add conference participants without interrupting the ongoing conversation.
- The 5-inch touch screen on the CP960 creates a virtual meeting room user interface -- the Yealink Pentagon Meeting Room -- that mimics the sense of physical conferencing for fast and easy conference control. It enables speed connection with one-touch inviting all the selected participants. The Yealink Active Speaker displays the current speaker's icon to make conferencing easier than ever.

Hybrid UC Meeting Enabled

- The CP960 and CP920 enable the Hybrid UC Meeting for extraordinary convenience. With Bluetooth and USB connectivity, you can easily pair the conference phone with a PC or mobile phone. Join or create a conference by simply merging the calls.

Key Features and Benefits

Sensitive Touch, Elegant Control

This Y-shape phone released from Yealink, representing the first letter Y of Yealink, owns a sensitive touch keypad which perfectly cancels the keypad noise and facilitates your conference room experience by simply putting all of the key conferencing functions at your fingertips.

Superior Audio Quality

The Yealink CP920 conference phone, marrying the Yealink Noise Proof Technology, unburdens the business conversation by reducing annoying noise and minimizing distractions to set audio experience into a new level. Thanks to its built-in 3-microphone array, CP920 owns a 20-foot (6-meter) and 360-degree voice pickup range as if all participants are sitting across the table from each other!

Simultaneous Analog-plus-IP

To protect business owner's investments by supporting the migration to VoIP, CP920 allows you to connect Yealink PSTN box CPN10 with traditional analog phone lines. Without purchasing any extra PSTN server, just cascading two CPN10 can directly implement local three-way PSTN conference and offers flexible modes for business users: analog, IP or simultaneous analog-plus-IP.

Hybrid UC Meeting

With Yealink CP920, up to five parties can join a conference call from different locations, helping your company cut costs and save time. Pairing Yealink CP920 with your smartphone or PC/tablet via Bluetooth allows you to turn the Yealink CP920 into a loudspeaker or microphone with ease. In addition, you can merge your smartphone or PC/tablet, SIP call and PSTN call into one hybrid UC meeting.
